16/30

53% INTENSITY

Pre-Verify All | Clear Items

META TAGS & PAGE TITLES *(6 PTS)* 4/6

- [ ] **Title tag present and ≤ 60 characters** +2 Pts

  Ensure every page has a unique title tag under 60 characters. Tip: Front-load important keywords if possible.

  KB-DIAGNOSTIC

HEADINGS & STRUCTURE *(5 PTS)* 2/5

- [ ] **Page has one <h1> and meaningful <h2>/<h3> structure** +3 Pts

  Use proper heading hierarchy with only one H1 per page and logical, descriptive H2/H3 subheadings that outline your content.

- [ ] No heading tag misuse (e.g.,

Meta description present and ≤ 160 characters +2 Pts

Open Graph / Twitter meta tags present +2 Pts

multiple h1s) +2 Pts

INDEXING & CRAWLABILITY *(5 PTS)* 5/5

robots.txt file present and valid +1 Pts

sitemap.xml accessible +1 Pts

noindex not set on main pages +1 Pts

Canonical tags used properly +2 Pts

SCHEMA MARKUP *(4 PTS)* 4/4

JSON-LD or Microdata schema present (Article, Organization, etc.) +4 Pts

INTERNAL LINKING *(5 PTS)* 0/5

Interlinking between articles/pages exists +3 Pts

Ensure relevant internal links connect your content, helping users and search engines navigate your site and distribute link equity.

No broken internal links (simulated) +2 Pts

Regularly check for and fix broken internal links to improve user experience and crawlability. Use tools like Screaming Frog.

MOBILE SEO & ACCESSIBILITY *(5 PTS)* 1/5

Mobile-friendly viewport configured +1 Pts

ALT text on images (simulated check on prominent images) +2 Pts

Provide descriptive alt text for all important images to improve accessibility for visually impaired users and provide context to search engines.

Semantic HTML tags (header, nav, footer) used +2 Pts

Use semantic HTML5 tags like <header>, <nav>, <main>, <article>, <aside>, and <footer> to structure your content meaningfully.

CONTENT QUALITY & COMPLIANCE

2/18 ITEMS • 30 WEIGHT

3/30

10% INTENSITY

Pre-Verify All Clear Items

ARTICLE COUNT & DEPTH (8 PTS) 0/8

- [ ] **Minimum 20 indexed articles (simulated)** +2 Pts
  Aim for at least 20-30 high-quality, indexed articles or pages to show site substance. Quality over quantity is key.

- [ ] **Minimum 600 words per article (average, simulated)** +2 Pts
  Ensure articles are substantial and provide depth. For informational content, 600+ words is a good guideline, but value matters most.

- [ ] **Original content (simulated plagiarism/AI check >80% original)** +2 Pts
  Content must be original and unique. Avoid plagiarism and ensure any AI-generated content is heavily edited, fact-checked, and provides unique value.

- [ ] **Clear, useful language (simulated Flesch score > 60)** +2 Pts
  Write clearly and concisely for your target audience. Aim for a Flesch Reading Ease score of 60 or higher for general audiences.

E-A-T SIGNALS (7 PTS) 2/7

- [x] **Author info or byline present** +2 Pts

- [ ] **Site mentions credentials or experience** +1 Pts
  Showcase any relevant credentials, expertise, awards, or experience on your 'About Us' page or author bios to build trust.

- [ ] **External backlinks to trusted sources (simulated)** +2 Pts
  Link out to authoritative and relevant external sources where appropriate to support your content and demonstrate research.

- [ ] **Outbound links open in new tab with rel attributes (e.g., noopener)** +2 Pts
  Ensure external links open in a new tab (target="_blank") and use rel="noopener noreferrer" for security.

LEGAL & TRUST PAGES (8 PTS) 1/8

- [ ] **Privacy Policy page present & comprehensive** +2 Pts
  A comprehensive Privacy Policy page is mandatory and must be easily accessible. Detail data handling, cookie usage, third-party services (like AdSense), and user rights.
  KB-DIAGNOSTIC

- [ ] **Terms & Conditions page present & clear** +2 Pts
  Include a clear and relevant Terms &

ADSENSE CONTENT POLICY COMPLIANCE (7 PTS) 0/7

- [ ] **No adult/pirated/violent/dangerous content** +3 Pts
  Strictly adhere to AdSense content policies. Remove any content related to adult themes, pirated software/media, violence, hate speech, illegal drugs, weapons, etc.
  KB-DIAGNOSTIC

- [ ] **No excessive profanity or hate**

Include a clear and relevant Terms & Conditions/Terms of Service page outlining rules for using your site.

- [ ] **Disclaimer page present (if applicable) & visible** +1 Pts
  Provide a Disclaimer page, especially if offering advice (financial, health, legal, etc.) or using affiliate links. Make it easy to find.

- [ ] **Contact Us page with functional, real email/form** +1 Pts

- [ ] **About Us page with transparent person/entity details** +1 Pts
  Develop a transparent 'About Us' page clearly describing who is behind the website, its mission, and its values.

- [ ] **Cookie Consent mechanism functional (for EU/GDPR traffic)** +1 Pts
  If targeting EU users, implement a functional, GDPR-compliant cookie consent banner that allows users to accept/reject non-essential cookies before they are set.

- [ ] **No excessive profanity or hate speech** +1 Pts
  Maintain a professional tone and avoid excessive profanity, offensive language, or hate speech.

- [ ] **No misleading health or financial claims** +2 Pts
  Avoid making unsubstantiated or misleading claims, especially in health and finance niches (YMYL). Content should be accurate and trustworthy.

- [ ] **No scraped or spun content** +1 Pts
  All content must be original and provide unique value. Scraped, aggregated, or heavily spun content will lead to rejection.

TECHNICAL PERFORMANCE

2/9 ITEMS • 20 WEIGHT

5/20
25% INTENSITY

Pre-Verify All Clear Items

PAGE SPEED *(5 PTS)* 0/5

- [ ] **Google PSI score > 70 desktop (simulated)** +2 Pts
  Aim for a Google PageSpeed Insights score above 70 for desktop. Optimize images, leverage browser caching, and minimize render-blocking resources.
  KB-DIAGNOSTIC

CORE WEB VITALS *(5 PTS)* 0/5

- [ ] **LCP < 2.5s (simulated)** +2 Pts
  Largest Contentful Paint should be under 2.5 seconds. Optimize server response times and resource load times.
  KB-DIAGNOSTIC

- [ ] **CLS < 0.1 (simulated)** +2 Pts

- [ ] **Google PSI score > 50 mobile (simulated)** +3 Pts

  Mobile speed is critical. Aim for a Google PageSpeed Insights score above 50 for mobile. Prioritize above-the-fold content loading.

Cumulative Layout Shift should be under 0.1. Always include size attributes on images and videos, and reserve space for ads.

KB-DIAGNOSTIC

- [ ] **FID < 100ms / INP good (simulated)** +1 Pts

  First Input Delay should be under 100ms. Break up long JavaScript tasks and optimize event handlers.

  KB-DIAGNOSTIC

SECURE SITE (HTTPS) *(2 PTS)* 2/2

- [ ] Valid SSL cert, no mixed content +2 Pts

RESPONSIVE LAYOUT & VIEWPORT *(3 PTS)* 3/3

- [ ] Uses media queries and scales on mobile +3 Pts

404/BROKEN LINKS & ERRORS *(5 PTS)* 0/5

- [ ] **No 404 errors on main pages** +3 Pts

  Regularly scan for and fix 404 errors. Set up proper 301 redirects for deleted or moved pages.

- [ ] **No broken internal or external links (simulated)** +2 Pts

  Regularly scan for and fix broken internal and external links. Broken links frustrate users and can harm SEO.

USER EXPERIENCE & ENGAGEMENT SIGNALS

0/12 ITEMS • 20 WEIGHT

0/20

0% INTENSITY

Pre-Verify All Clear Items

UI/UX SIGNALS *(5 PTS)* 0/5

- [ ] **Clean, professional design with** +2 Pts

NAVIGATION AND SITEMAP *(3 PTS)* 0/3

- [ ] **Navigation bar/menu present** +1 Pts

good readability

Maintain a clean, professional design that instills trust in visitors. Use readable fonts and proper contrast.

- [ ] **No excessive ads/pop-ups, intrusive interstitials avoided** +2 Pts

  Avoid cluttering your site with excessive ads, intrusive pop-ups, or interstitials that block content.

- [ ] **Readable fonts and adequate text sizes** +1 Pts

  Use readable fonts with appropriate sizing (minimum 16px for body text) for comfortable reading.

on all pages

Ensure consistent, easy-to-use navigation is present on every page.

- [ ] **Breadcrumbs or footer nav exists** +1 Pts

  Implement breadcrumbs for easier navigation on content-rich sites or ensure a comprehensive footer navigation.

- [ ] **HTML sitemap or clear sidebar links** +1 Pts

  Provide an HTML sitemap or clear sidebar navigation for users to easily find content.

ENGAGEMENT & ANALYTICS *(4 PTS)* 0/4

- [ ] **Google Analytics or similar script installed (simulated)** +2 Pts

  Install Google Analytics or a similar analytics platform to track and understand your traffic patterns.

- [ ] **Comments or user interaction visible (optional, but good)** +1 Pts

  Encourage user engagement through comments sections or forums if appropriate for your site's niche and content.

- [ ] **Bounce rate indicators (simulated, e.g., <70%)** +1 Pts

  Monitor bounce rate; high bounce rates might indicate poor content relevance, UX issues, or slow loading times.

BACKLINK & TRAFFIC SIGNALS *(8 PTS)* 0/8

- [ ] **Some organic traffic (simulated > 0)** +3 Pts

  Your site should have organic traffic from search engines. Focus on SEO and content marketing to build traffic.

- [ ] **Backlink count > 10 (simulated, even small ones)** +2 Pts

  Build quality backlinks from other websites to improve your domain authority and trustworthiness.

- [ ] **At least 2 pages indexed in Google (simulated)** +3 Pts

  Ensure your key pages are indexed by Google. Check using 'site:yourdomain.com' search in Google and monitor Google Search Console.
